

Notes: Each point represents the proportion of respondents in a country–year to give a democracy–support rating. Publication data is as reported in Claassen (2020a); the corrected data was collected directly from the original survey on the evaluation of democracy accounts for most overreports, and the Pew Global Attitudes item on the importance of democracy accounts for the large underreports. In both cases, these issues can be easily explained by errors in transcribing the data. Inconsistencies in the inconsistent treatment of missing data and/or survey weights, reflecting in part differences in codebook reporting.
